Understanding Part D coverage phases in 2021

**PLEASE NOTE:** Not every drug plan member will go through all of these phases of coverage.

1. **DEDUCTIBLE:**
   Our Medicare Advantage members do not have a Part D deductible, so you will start at the Initial Coverage phase.

2. **INITIAL COVERAGE:**
   In this phase, you pay a copay or coinsurance each time you fill a prescription.

3. **THE COVERAGE GAP OR “DONUT HOLE”:**
   After the total drug cost (paid by you and the plan) reaches $4,130 you enter the coverage gap phase.
   - **COVERAGE GAP**
     You pay 25% of the plan’s cost for covered brand-name drugs and 25% of the plan’s cost for covered generic drugs.

4. **CATASTROPHIC COVERAGE LIMIT:**
   In the event that your drug costs become very high during any given year, catastrophic coverage is when your plan pays the majority of your prescription drug costs. You enter this phase when your 2021 true out-of-pocket costs (also known as TrOOP) reach $6,550.

**FACT:**
In order to control costs, Medicare requires many Medicare Advantage plans to include a coverage gap or “donut hole” phase.
Independence Blue Cross offers products through its subsidiaries Independence Hospital Indemnity Plan, Keystone Health Plan East and QCC Insurance Company — independent licensees of the Blue Cross and Blue Shield Association.

Independence Blue Cross complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability or sex.
